

# Concurrent Technologies Corporation Moves into New Crystal City Office

The move is just 15 blocks to the north – but the relocation will make a world of difference to our clients and employees.

The new Concurrent Technologies Corporation (CTC) Crystal City office provides employees who use the facility with better access to public transportation and positions them much closer to Pentagon clients and the center of Washington, D.C.

“Not only does the building have better accommodations, but the location is much more convenient for travel to and from our clients in the D.C. area,” said Bob Kubler, Senior Director, Readiness & Training, CTC. “In this new location, we’re much better equipped to host client meetings. The main reason for the move was to enhance our ability to provide the best possible service to our clients.”

About 14 employees work from the office every day. The office also serves approximately 25 more employees who live in the D.C. metropolitan area and use the facility to conduct business. The office building includes a conference center with several conference rooms for business use.

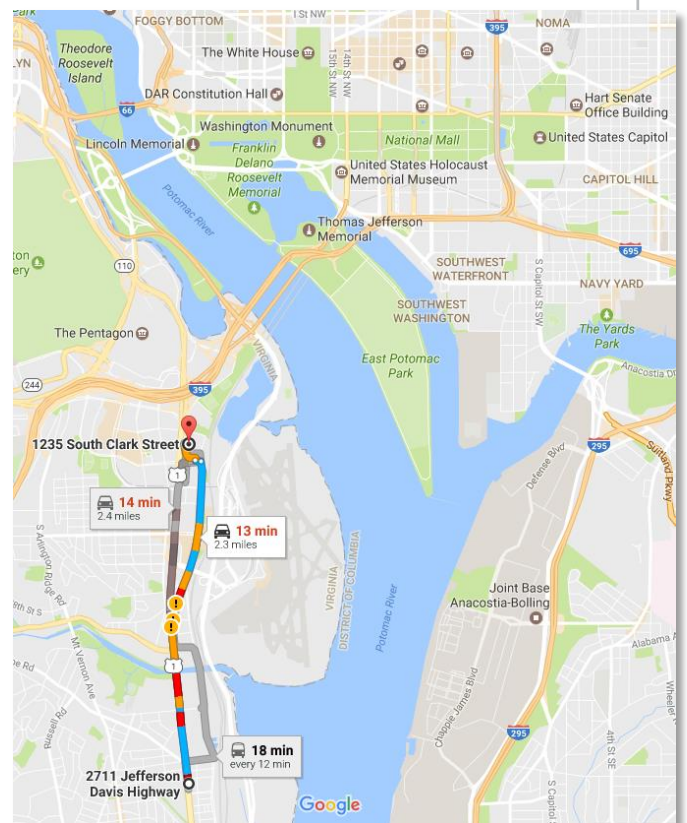

The new Crystal City office address is:

1235 South Clark Street, Suite 715  
Arlington, VA 22202-3296

On the other side of Washington, CTC has an office in Annapolis Junction, Maryland. The company maintains a presence at [several other locations](#) around the country, where we can best support our clients.

*The new Crystal City office building at 1235 South Clark Street offers visibility from the Jefferson Davis Highway as well as close proximity to the Pentagon.*

*This map shows the location of the new office at 1235 South Clark Street in relation to the former site on Jefferson Davis Highway.*
