

Concurrent Technologies Corporation and Enterprise Ventures Corporation Welcome Children to Work

For the 13th consecutive year, Concurrent Technologies Corporation (CTC) hosted employees' children as part of the national [Take Our Daughters and Sons to Work Day](#) on April 27, 2017.

More than 30 students in 4th through 8th grade participated in demonstrations of select technologies and professional areas, as well as lunch and job shadowing with their parents at Johnstown's Environmental Technologies Facility.

CTC's event focuses on showing students what their parents do at work, helping them see the value of their education and envision the future by exposing them to a variety of occupations and technologies through interactive demonstrations and hands-on activities.

Once again, Georgann Thomas, CTC Human Resources Policy & Compliance Administrator, spearheaded what was a meaningful and fun day for all involved.

The day started with CTC President and CEO Ed Sheehan welcoming the group of children. From there, they split up to attend six different demonstrations conducted by CTC and Enterprise Ventures Corporation employees throughout the building:

- **Laser Scanning** – Mike Sombronski, Bruce Williams
- **Cyber Security** – Brett Wilmotte
- **Quality Assurance** – Gwen Michaux, Brian Sendzik, Ed Connor
- **Safety Committee/Fire Safety** – Tom Monito, Heidi Wildauer, Mark Parseghian
- **Immersive Technology** – Ron Punako
- **Additive Manufacturing** – Dave Eash.

After enjoying lunch together, the kids spent the afternoon shadowing their parents.

Group photos are on the next page.

(Top) Ron Punako led the immersive technology segment, letting the kids wear the mixed reality Microsoft HoloLens, allowing them to see the dinosaur in the room. (Middle) Mark Parseghian helped facilitate the fire safety demonstrations. (Bottom) These students are very interested in the additive technology tour stop, led by Dave Eash.
