## **Concurrent Technologies Corporation Recognized for Continually Providing Outstanding Support for Military Employees**

***Recognized as a 2011 Most Valuable Employer for Military® by CivilianJobs.com***

**Johnstown, PA, August 9, 2011** – Concurrent Technologies Corporation (CTC) announced today that it has been recognized as a Most Valuable Employer (MVE) for Military® by CivilianJobs.com for the second consecutive year. CTC is one of only 35 companies nationwide who made the final list.

"CTC is honored to be a Most Valuable Employer for Military for the second consecutive year," said Edward J. Sheehan, Jr., CTC's President & Chief Executive Officer. "This award recognizes our efforts and confirms that we have the right policies and procedures in place to best serve active, Reserve, National Guard, and veteran service members."

The 2011 Most Valuable Employers (MVE) for Military® recognition was open to all U.S.-based companies. The winners were selected based on surveys in which employers outlined their 2011 recruiting, training, and retention plans that best serve military service members and veterans.

"I would like to extend heartfelt congratulations to the 2011 Most Valuable Employers for Military winners," said Sandra (Sandy) Morris, CEO of Bradley-Morris, Inc., parent company of CivilianJobs.com. "Over my 20 years in the military recruiting industry, I have been encouraged when any company improves their talent pool by hiring veterans. But the MVE winners are a cut above. These employers, both large and small, demonstrate an understanding of and a dedication to our military service members, and I am thankful that we are able to shine a spotlight on their efforts."

Award recipients are being recognized on the CivilianJobs.com [Web site](#) as well as a recent issue of *Civilian Job News*, CivilianJobs.com's worldwide military base newspaper.

Concurrent Technologies Corporation (CTC) is an independent, nonprofit, applied scientific research and development professional services organization providing innovative management and technology-based solutions to government and industry. As a nonprofit 501(c)(3) organization, CTC's primary purpose and programs are to undertake applied scientific research and development activities that serve the public interest.
