**Concurrent Technologies Corporation Names David H. Artman, P.E., Ph.D.
as Senior Vice President, Engineering Group**

Johnstown, PA, December 1, 2015 – Concurrent Technologies Corporation (CTC) has appointed David H. Artman, P.E., Ph.D. to the position of Senior Vice President, Engineering Group. Artman, who has more than 40 years of experience, will oversee the activities of over 200 technical and business development staff members and lead the development of breakthrough technologies consistent with client needs.

“Dr. Artman will focus on expanding business in the areas of Research, Development, Testing and Evaluation (RDT&E), weapons systems and platforms, and other areas of national R&D interest,” said Edward J. Sheehan, Jr., CTC President and Chief Executive Officer. “CTC selected Dr. Artman based on a long list of factors, including his diverse professional career, proven leadership capabilities, and community recognition. A short-list of his experience includes industry leader, military commander, wartime planner, policy and budget developer, technology developer, program developer, mentor/teacher, and community service leader.”

Artman earned a Doctorate of Philosophy and Masters of Science in civil engineering from the University of Illinois, and a Bachelor of Science in civil engineering from The Ohio State University. He is a Registered Professional Engineer in Virginia and Florida.

During the first half of his professional career, Artman served the U.S. Air Force at numerous locations both state side and overseas. He developed science and engineering technologies at Service laboratories; conceived and managed technology for military users as part of both Service and Defense agencies; served on Service staffs developing policy and doctrine; ushered program/budget processes in the Pentagon; and shepherded initiatives with Congressional members, committees, and professional staffs.

As a civilian, Artman achieved senior positions in private industry applying experiences of leadership and technology application for both the military and private sector. Most recently, he served as senior vice president, Applied Research Associates, Inc. and previously, as vice president at ERES Consultants, Inc.
