

FedRAMPSM Authorized Unclassified Remote Hosted Desktop (URHD) Cloud Computing System

Concurrent Technologies Corporation (CTC) is pleased to announce that its Software as a Service (SaaS) cloud computing offering, “the Unclassified Remote Hosted Desktop (URHD)” is the first FedRAMPSM certified SaaS that can be leveraged by federal, state and local government.

The FedRAMP certification of URHD validates that it has met the stringent National Institute of Standards and Technology (NIST) 800-53 security controls and is FISMA compliant.

URHD SaaS components are:

- Cloud-based application hosting
- User Definable Virtual Workspaces
- Cloud-based Desktop as a Service (DaaS)
- Mobile Cloud–Any Connected Device, Any Location

Benefits of choosing URHD:

- Meet the U.S. Government’s “Cloud First” policy
- Realize significant cost savings and a reduced time to deploy by leveraging our FedRAMP certification
- Obtain real-time security visibility through our continuous monitoring
- Take advantage of the scalability and elasticity of cloud computing
